

Inspiring Design to Suit Your Goals, Needs and Budget

Thank you for your interest in our services. We have built our architectural firm upon an approach centered upon service to our clients, with your needs paramount within our design focus. Our mission is to develop responsible building solutions to meet our client's functional and financial needs through a creative, practical and sustainable approach to architectural design.

Originally established in 1956, Evans Bertrand Hill Wheeler Architecture (formerly Critchley Delean Trussler Evans Bertrand Architects) has successfully developed an excellent reputation with a long list of experience throughout Northern and Central Ontario. Each year our project list grows, as does our clientele region, now spanning from Gravenhurst to Parry Sound, to James Bay and on towards the Manitoba border. As the largest firm in the North Bay area, our capacity to perform quality work is enabled by our team of approximately 20 staff under the leadership of 5 registered architects. With over 50 years of continuous practice, our firm continues a proven commitment to a high degree of excellence, both through design and client satisfaction.
